

Mr. ENZI. Madam President, I thank the Chair, and I thank the chairman, but from the speeches, one can tell that the Senator from Connecticut has more passion than I do. Nobody is more passionate than the Senator from Connecticut, and I appreciate his passion, particularly on this issue.

I am very hopeful we can get something done. It has been at least 10 years—I know I have worked on this all the time I have been here, and it is true in the Senator's explanation that sometimes it makes it through the House and sometimes it makes it through the Senate but it never makes it through both Houses at the same time. I think to get it done, though, it is going to take a little bit longer. I appreciate the offer the leader is making that he wishes to have votes on the relevant and arguably germane amendments that are before us, but there isn't any assurance of that if there is cloture on the bill, and that is the difficulty.

It seems to me as though we ought to be able to work out some kind of an agreement so we can quickly get into the couple of amendments that have already been debated and debated extensively, and that we would be assured of at least those two, but we haven't had a vote on anything.

I appreciate the cooperation we have had from Chairman DODD in working out a couple of the provisions, but there are some other people who have some provisions they think ought to be debated and brought up and perhaps included, but if we invoke cloture, there is no assurance they get to do that. So I have been asked to suggest that we not invoke cloture at this point in time and then do it quickly another time if it can be brought up again.

One of the amendments is Senator BURR's alternative. Even though he represents a tobacco State, he has a substitute amendment that takes major steps to restrict tobacco. It takes a tougher stance than some of the things we have in the bill. It creates a new office within HHS to regulate tobacco. I spoke about the difficulties of having the FDA do it, as they are supposed to take poisonous materials and get them off the market. Instead of giving that kind of a seal of approval, this new office would regulate the tobacco industry. It puts in place a realistic, science-based standard for the approval of new and reduced risk products. It also requires States to do more on tobacco control—something we can all support. The Burr amendment makes it more difficult for kids to get tobacco and start smoking, and that is the most important thing of all, and that is what Senator DODD has concentrated on in his remarks.

But we won't be considering that amendment, nor will we consider my amendment to ensure that the FDA continues to have the resources to carry out this program, or any amendments on smoking cessation. We won't have an opportunity to improve the

bill and attack the root of the problem, which is tobacco use.

For example, I had an amendment to reduce smoking by 1 percent a year. That is a 100-year phaseout that ought to be fairly reasonable, but we aren't going to get to debate that at all or have a vote on that amendment if we invoke cloture. So I hope we can find a way to give germane amendments serious consideration over a short period of time.

I have to oppose cloture at this point in time, and I urge my colleagues to do the same.

I yield the floor, reserve the remainder of the time, and suggest the absence of a quorum, with the time to be divided equally.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Madam President, there has been some misunderstanding. I announced this on Thursday, and Senator DODD followed me and also said the same thing. Right now, there is a question with the minority on whether there would be a vote on Burr on the substitute. We said Thursday, and we say today, we are happy to allow Senator BURR to have a vote on that amendment. We have never said anything to the contrary. We still believe that should be the way it is. It is important to him, it is important to Senator HAGAN, and we are going to allow a vote on that unless there is some objection from the minority. Over here, even though cloture is invoked and technically it may not be in order, we would be happy to arrange a vote on that. We have said it for the last many hours we have been on this legislation. My point is, anybody who is not going to vote for cloture because of that is misguided and doesn't understand the facts.
